

Join Our “Introducing Project Management” Course at The Isle of Wight College!

Who the course is for

This course is perfect for anyone looking to dive into Project Management, whether you're aiming to progress to a qualification, exploring a personal interest, or wanting to apply these methods in your business.

What will you learn?

- Intro to Project Management
- Project Management Lifecycles
- Project environments
- Leadership and Team Development
- Risk and Issue Management in Projects
- Scope Management
- Scheduling tools
- Earned Value Management
- Project environments

Instead of a formal exam, this course offers a hands-on approach by working closely with a case study and completing a variety of knowledge tests. This ensures you gain practical experience and understanding in an engaging way. Industry Perfect for anyone looking to create positive change through introducing new products, services or processes to their existing environment.

What is the progression of this course?

- Higher Apprenticeships in Associate Project Manager
Operational Manager Level 5
- Higher National Diploma (HND) in Business
- CMI Level 5 Award in Leadership and Management

Much of the course content and material will be available through the College VLE. Candidates will benefit from having laptop and Wi-Fi access away from campus.

How much is this course? This course is £200.00 per person
